4TH ANNUAL
CONFERENCE
& EXHIBITION

NEXTBIGTECH ASIA 2020 - NATIONWIDE TECH-TALK

26 MARCH 2020
1:30pm - 5:00pm

PENANG

OVERVIEW

With all the tech disruptions and evolutions, **NextBigTech Asia 2020** conference and exhibition is back again. Knowledge Group of Companies is kicking off the year with a taste of NextBigTech Asia via its Nationwide Tech-Talk happening on 26 March 2020 in Penang!

Join us at the tech-talk to network and experience what NextBigTech Asia has to offer!

This Tech-Talk is sponsored by Knowledge Group of Companies for the Artificial Intelligence, Big Data & Data Science community in Malaysia. It is a part of our **NEXTBIGTECH ASIA 2020** to be held on **7 - 8 September 2020** at **Connexion@Nexus, Bangsar South, Kuala Lumpur**.

AGENDA

TIME	PROGRAMME
1330 - 1430	Registration of NextBigTech Asia 2020 - Nationwide Tech-Talk
1430 - 1440	Welcome Remarks by Mr. Selva Nagappan, Managing Director, NextBigTech Asia 2020
1440 - 1510	Panel Discussion: Drones Now Have Responsibilities! Drones were once a fun toy, however, now it is an increasingly dependent technology. Authorities like the government, police and highway patrols in Malaysia are leveraging drones as surveillances and providing real-time information. Data that are gathered from the drone are interpreted and decisions are made from them. In this session, hear from the experts on: <ul style="list-style-type: none">• How effective have the data gathered from drones been used as solutions to existing problems?• Is privacy and security of individuals are being bridged with the drones that are flying around and capturing data?
1510 - 1530	The Evolution Opportunities The oil and gas industry are one of the fields that is going big in digitizing. The main reason in leveraging IIoT, AI and Big Data is to create a more efficient working environment. Security has been a great concern in the oil and gas industry and with IIoT, AI and Big Data, this concern has been much lighter. This session will be discussing on: <ul style="list-style-type: none">• The current digital evolutions and impact to the business models.• Are oil and gas companies looking into creating its digital transformation strategy roadmap?
1530 - 1550	Keeping Up with the Unicorns It is common to be curious on how companies are leveraging on the mass of data they have gathered. The ride-hailing unicorn company in Indonesia prioritize and optimize the features of their app based on the real-life location data. GOJEK simply used the data received from locations and determine the preferences of the customers. In this session, hear on: <ul style="list-style-type: none">• What are the next steps of GOJEK to provide a more efficient and convenient service to their customers?• The data that have been gathered, is GOJEK looking into expanding its business?
1550 - 1620	Panel Discussion: Don't Stress, Feel Fresh! The rise of technology has created the fear of job loss. However, based on a study by Forbes, machines will not be taking over an employee's job, instead the employee and machine will be working together. Skilled and professional employees will be in higher demand to match with technological evolution. In this session, hear regarding: <ul style="list-style-type: none">• How AI will not be taking over jobs but creating more skilled jobs?• The essence of involving AI in daily routine job and the economy impact of the country. Panelist: Guru Adrakatti , Chief Digital and Innovation Officer, Hong Leong Manufacturing Group, Malaysia
1620 - 1700	End of NextBigTech Asia 2020 - Nationwide Tech-Talk
